

## **National Preparedness Month – September 2004**

Jefferson City held an official launch of the National Preparedness Month on September 9 on the State Capitol grounds. Governor Holden's opening remarks and a news conference began the event. Exhibits and displays were available to learn about volunteering opportunities and how you, your family and your community could be better prepared for emergencies. State agencies, Citizens Corps, volunteer agencies and other emergency preparedness partners were a part of the exhibits and displays.

To find volunteer opportunities in your community and learn more about how Citizen Corps is making communities safer, stronger and better prepared, see [CERT/Citizen Corps](#) page.
